

FOR IMMEDIATE RELEASE

NEW NOVEL LINKS HISTORY AND GENEALOGY IN COLONIAL-ERA FICTION

PALO ALTO, California, January 16, 2021 – Marcia Kemp Sterling’s newest novel, *Tangled Roots*, will be available for purchase online in both paperback and ebook format on January 26, 2021, with bookstore orders to follow the official book launch in February.

An immigrant story set in colonial Pennsylvania, *Tangled Roots* reimagines the original melting pot, as Europeans from all walks of life took a risk in search of opportunity, journeying across the sea to mingle with peoples of different cultures, languages, religions and races to stake a claim in the New World. Told from the perspective of young settlers and servants, the narrative explores the lingering effect of their European roots and the profound changes soon to be wrought in the struggle for American Independence.

After graduating from Stanford Law School, Marcia Kemp Sterling was a corporate securities partner at a Silicon Valley law firm and senior vice president and general counsel of a software company. After retirement from law practice, she turned to writing. She grew up in Texarkana, Arkansas and lives in Palo Alto, California with her husband.

Tangled Roots is available through River Grove Books, Ingram, Amazon and all major wholesalers, as well as through the author’s website at www.MarciaKempSterling.com.
